Mickey:

They can schedule their meeting with Leroy Cassidey (CB&I Project Manager) or Adam Adams (EPA OSC). We are doing vac box transfers next week.

Thanks

Gary Moore

Gary,

Lonestar & Lancer are planing on inspecting the ASTs next week. Since you will be on call next week should they schedule their visit with you or someone that will be on site?

I agree. Let's exchange the tanks for removal of the waste.

C4

As expected the Lab Packs are not going to cost as much as represented on their cost proposal. Therefore, C4 will start removing the ceramic material, misc drums & the stock piled rubbish located at the rear of the site. This effort will continue until they have reached the amount approved in the court order.

ASTs

We now have two (2) strong prospects (Lonestar & Lancer) interested in purchasing the ASTs. Do you want me to prusue an exchange of the Tanks for the disposal of the waste therein or sale of the ASTs after the EPA has completed their activities? My opinion is that the estate would better benifit in the exchange rather than the allowing the EPA to remove/dispose of the waste. The cost for the EPA to remove the waste will be marked up by 50% which is their normal markup. You will receive an offer from both parties by the end of next week.
